

Education

We are specialists in the provision of bespoke insurance solutions for the Education sector. We know how vitally important it is to meet your individual and personal needs. We have Chartered Insurance Broker status underlining our professionalism and integrity so you know you are in safe hands.

Education

Each educational establishment is as individual as the children or adults it teaches. We know how vitally important it is to assess the insurance needs of your school, college or university on its own merits.

We can offer customised cover that is flexible, competitive and particularly recognises well-managed establishments. You can choose from an extensive range of covers to give you the insurance protection you need and is important to you including:

- **Material Damage** to property including buildings, fixtures/fitings and contents, (including computers) accidental or malicious damage
- **Business Interruption** to cover for reduction in gross revenue resulting from material damage
- **Public Liability** to cover claims for third party injury or property damage, including additional benefits such as libel and slander. There is **NO** exclusion for abuse claims which may be made against your teaching staff by parents or students
- **Medical malpractice** for Special Schools
- **Employers' Liability** covering legal liability to staff for death, injury or disease arising out of their employment
- **Professional Liability** giving protection against claims brought against your establishment arising from dishonesty or breach of professional duty. Cover also protects Governors against claims for alleged breach of duty, trust or authority arising out of their responsibilities
- **Legal Expenses** including schools admission, appeals and exclusion of students
- **Personal Accident/Travel** for educational trips worldwide

Why Jobson James?

Originally founded in 1991, we remain totally independent. Committed to the highest standards, you are assured of:

- **Sound and impartial advice** from a team of highly trained and qualified specialist professionals.
- **Access to all the leading Education Insurance providers.**
- **A bespoke solution** tailored to your establishment and your needs.
- **Peace of mind** that you have the right cover.

- **Short lines of communication with a dedicated account director who is always accessible.**
- **Good 'old fashioned' personal service and attention to detail.**
- **A long term partnership approach and track record of establishing lasting relationships with quality clients.**

Claims Management

We recognise a loss, damage or injury may occur, which is when a claim will result. Unlike many brokers, we have our own in-house claims service solely representing your interests to support you in getting claims paid promptly. You can concentrate on your day to day business secure in the knowledge that your insurance broker knows and understands your business and is working personally on your behalf.

Financial Conduct Authority

We are regulated by the Financial Conduct Authority and fully support their aims and objectives. We operate our business through management actions and behaviours that aim to create trust and fair outcomes for our customers, peers and the Regulator. Conduct Risk Management is embedded in our culture and is embraced by every employee.
